NEWSLETTER ISSUE No. 9

Project Information

Isn't spring beautiful!! Everyone has more bounce in their step and are typically smiling. The onset of spring, along with the addition of more excellent tradesmen have helped us pick up time on the Wallace Field development. The drywall is almost complete in apartment 3 and framing work is underway on 6 of the 7 townhouse buildings.

We would like to welcome the following contractors to our team diligently working on Wallace Field:

Leonard and crew from North Battleford, Pete with family and crew from southeast Manitoba, and Del from Saskatoon. GDI appreciates and thanks everyone for their efforts and diligent work all winter long on the Wallace Field project.

Habitat for Humanity Facts

- Over 1000 homes have been built in Canada since 1985
- Somewhere in the world a habitat home is being built every 24 minutes.
- Lloydminster's local Restore generates funds to support the local Habitat for Humanity.
- Since its start in 1999, Habitat for Humanity "On the Border" has built one house in Lloydminster, with plans to expand to building at least one house per year. Once seven homes are built, the mortgage payments alone will allow for one build every year.
- Volunteer labor is used to build houses to keep the costs down. The partner families are required to make monthly mortgage payments as well as invest hundreds of hours into building their home as well as homes for others.

A Few Great Tips . . .

- Heat up left over pizza in a non-stick skillet on top of the stove, set heat to med-low and heat until warm. This keeps the crust crispy.
- When you buy a container of cake frosting from the store, whip it with your mixer for a few minutes. You can double it in size!
- Use a dry cotton ball to pick up little broken pieces of glass - the fibers catch the ones you can't see!
