

Project Update

Glencoe Developments Inc. is proud to announce that it is now a Certified Energy Star builder. The Energy Star program stipulates that its builders must construct to a set of standards that are tested on site and in turn provide the homeowner lower heating and electrical consumption rates. If the home is located in Saskatchewan the homeowner is also eligible for up to \$5,000 in rebates from the Government of Saskatchewan and CMHC. Glencoe is currently constructing its first Energy Star certified home. The new 38 unit, WillowGlen townhouse development, located just west of the multiplex on the Alberta side will be offering Energy Star rated homes as an option.

For more information on Energy Star please see www.energystarsask.ca or contact Glencoe Developments Inc.

Recognition of the Month

GDI would like to extend special thanks to Burgess Paul and his crew for their commitment to the completion of drywall in the Southview Estates development. THANK YOU!!

National Home Warranty . . . Summer Suggestions

- Examine window and door seals and repair as necessary. This will cut down on energy costs for cooling.
- Check to ensure that there are no insects or vermin getting into your home.
- Lubricate locks on doors and windows with silicone spray.
- Make sure that plants and bushes do not grow up against the outside of the house (moisture can stay trapped and not dry, causing damage).

Did You Know?

- If you place a dryer sheet in your pocket it will keep the mosquitoes away!?!)
- To give fresh flowers extended life, mix 2 tablespoons of white vinegar and 2 tablespoons of sugar in a quart of water, and use instead of just water!
- Try using olive oil or other cooking oil to clean hands dirtied by engine oil . . .
- Replace old light bulbs with fluorescent bulbs. These last longer and use less energy!!
